

## Newsletter 3 - BdP national Jamboree 2022

Dear international guests,  
the registration phase is starting. Here are your instructions for registration. Please make sure before your registration that you read the settlement rules (camp fee 215€ and the cancellation rules), the existing corona rules (recovered in the last 3 months or having received a total of at least 2 vaccinations) and that your group can comply to them. Furthermore, all your participants need an international health insurance. This must be taken out either by each participant individually or for the entire group in your own country.

### How to – Online Registration

#### **Online registration form - this is how it works:**

For the binding registration you will receive a link for an online registration form personalized to your group. The camp fee incl. campsite, food, program, etc. is 215€.

The registration link works like buying a festival ticket. In this form the group leader orders campsite tickets for the whole group.

On the first page you can choose a number of tickets (a 215€). This number of tickets corresponds to your total number of participants (participants and group leader). Once you have selected the right number of tickets, put them in your shopping cart.

In a second step you have to personalize each ticket. Enter all necessary data of the respective participant (name, date of birth, passport number...). Important: Within the EU the number of the identity card is sufficient. Outside the EU we absolutely need the current passport number to prepare official invitations for visa applications.

At the end you confirm that you have read and accepted the payment concept and the hygiene rules of the federal camp and that you have taken out or checked an international health insurance for each participant.

Then you can send your registration.

Deadline for registration is 30.04.2022. Until then changes in the number of participants, as well as the withdrawal of the entire group via your registration link are possible free of charge.

### **Cancellation rules:**

Up to five days before the start of the camp (01.05. – 24.07.2022), participants will be charged 50% of the camp fee as a cancellation fee. If the participation is cancelled four days or more before the camp or if the participant does not show up at all, the full amount of the camp fee will be charged. If the federal camp is cancelled by the BdP (due to Corona), the camp fees will be refunded in full to the groups.

### **Payment:**

After you have completed the binding registration, you will receive a confirmation of registration and an invoice from your partner group for the camp fee of 215€ per person. Thereupon you transfer (until 15.05.2022) your fee to your partner group. The partner group then pays their own and your fee to the BdP (Bund der Pfadfinderinnen und Pfadfinder). This is necessary so that your partner group can receive the requested funding for you.

Since the payment of the fee is due before the granted money is distributed and we cannot estimate how many grants we will actually receive, you must pay the camp fee in advance. Your partner group will later receive grant money for your international meeting, which can then be used for a possible pre- or post-tour or partly paid back to you in order to subsidize your advanced camp fee.

On the next pages you will find again in detail the part of the settlement rules as well as the existing hygiene rules of the national camp

## **Your journey begins here...**

### **arrival and departure**

As soon as you have registered online with your link you can book your arrival and departure.

If you are coming directly to the national camp, you can take the S-Bahn from Munich to Wolfratshausen and from there you use our national Jamboree shuttle bus. The shuttle buses are expected to run between 3pm and 7pm on the day of arrival and between 9am and 1pm on the day of departure - at half-hourly or hourly intervals, depending on the number of registered groups.

Please book your flights and trains so that you arrive in Wolfratshausen during this period or depart on the day of departure. Please inform us as soon as you have booked about your arrival and departure times at the station of Wolfratshausen. If you cannot find a flight or train at this time, please let us know as soon as possible so that we can see if we can plan another shuttle option. Alternatively, you will have to use the public bus, which runs very irregularly and has to be paid extra.

If you want to travel to the hometown of your host group before and/or after the national camp and use the central bus journey of the national camp together with them, we absolutely have to know this by 15.04.2022 in order to reserve places for you on the bus.

The shuttle bus and the central bus journey are included in the camp fee and are therefore free of charge. All other means of transport within Germany have to be paid by you.

Please let us know as early as possible when and how you will be travelling to or from the camp so that we can plan your arrival and departure. If we do not receive any information from you, we will assume that you organise and pay for your own travel to the camp site.

**Campsite address: Rothmühle 1, 82549 Königsdorf**

Please note that public transport to the campsite is very irregular and only during the day.

### **Any questions?**

Are there any questions that your partner group can't answer? No problem, the international team of our national Jamboree is always there for you.

We are looking forward to welcoming you at the national Jamboree!

Yours in scouting,

the international Team

# Regulations of the Federal Settlement Rules, excerpt as of April 2020:

When determining the registration deadline, the management of the event shall take into account the cancellation deadlines of the respective accommodation. The cancellation of events for an unforeseeable reason (e.g. illness of the organisers, insufficient number of participants, Corona) is reserved.

Clarification for the German national Jamboree:

In this case, no costs will be charged to the participants.

A registered participant may withdraw free of charge up to the registration deadline (30.04.2022). Up to five days before the start of the event, participants will be charged 50% of the expected personal contribution to the respective event as cancellation costs. If participation is cancelled four days or less before the start of the event or if the participant does not turn up at all, the full amount of the expected personal contribution will be charged.

The cancellation regulations have no effect in the case of cancellation for an important reason (e.g. illness).

For registrations after the registration deadline, an additional late registration fee of 50% of the respective personal contribution will be charged.

Registrations and cancellations for the German national Jamboree must always be made via the online registration link.

# Existing hygiene rules and Corona FAQ:

Update: 06.03.2022

## Corona and the Federal Camp - Conditions of Participation

Participation in the national camp is possible under the following conditions.

- All participants under the age of 16 must be fully vaccinated, be recovered or tested (3G).
  - All participants over the age of 16 must be fully vaccinated or recovered (2G).
  - All participants must present a negative Corona test\* on arrival at the campsite.
- Corona test\* must be presented on arrival at the camp site. The negative test must not be older than 24 hours on arrival at the camp site.  
There must be no "corona symptoms".

## Test strategy

- We plan to announce a binding testing strategy in June, as concrete decisions are not yet possible.

- The test strategy will define:
  - o Which tests will be used.
  - o Which participants must use tests.
  - o How often tests will be administered.
  - o How tests will be administered (e.g. organisationally and logistically).
  - o How to deal with positive test results at the camp.
  - o etc.

\* Which form of testing is necessary is determined in the framework of the testing strategy (see above).

## Which regulations are implemented in the planning and implementation of the national Jamboree?

For the national camp we have to implement federal, state and regional regulations. These are for example:

- Infection Protection Act (<http://www.gesetze-im-internet.de/ifsg/IfSG.pdf>)
- Covid 19 Protection Measures Exemption Ordinance (COVID 19 Protection Measures Exemption Ordinance)
- Bavarian Infection Protection Measures Ordinance ([https://www.stmgp.bayern.de/wp-content/uploads/2021/12/2021-12-15\\_konsolidierte\\_fassung\\_-15\\_bayifsmv.pdf](https://www.stmgp.bayern.de/wp-content/uploads/2021/12/2021-12-15_konsolidierte_fassung_-15_bayifsmv.pdf))
- Regional regulations ("This applies in the district of Bad Tölz-Wolfratshausen" - <https://www.lra-toelz.de/erlaubt-im-landkreis-toelwor>)
- Protection concept Jugendsiedlung Hochland e.V. ([https://jugendsiedlung-hochland.de/wp-content/uploads/2021/11/2021\\_11\\_25-Schutzkonzept\\_Jugendsiedlung-4.0.pdf](https://jugendsiedlung-hochland.de/wp-content/uploads/2021/11/2021_11_25-Schutzkonzept_Jugendsiedlung-4.0.pdf))

**Will the national camp be able to**

**take place?**

For many aspects that the Corona pandemic will bring about in the future, we are looking into the proverbial "crystal ball": for which rules exactly will apply in summer of 2022, no one can predict with absolute certainty. Nevertheless, in consultation and after a lot of exchange with different people and institutions, we are sticking to our will to carry out the 2022 national camp! "We currently assume that the national camp 2022 will take place under "at least 2G conditions (vaccinated or recovered, ger.: Geimpft oder Genesen)" for people over 16 years. Kids under the age of 16 have to be vaccinated, recovered or tested which means 3G conditions (ger. Geimpft, Genesen oder Getestet)

### **Why are we currently planning with the "2G/ 3G standard"?**

On the one hand, we want to create as much freedom as possible, but on the other hand, we also want to create as much security as necessary for the individual participants. With that statement, we are currently in the "safest" area for further planning and for the upcoming registration phase. We have agreed on this planning basis together with the Federal Executive Committee and our hygiene officer.

### **What applies to people who cannot be vaccinated for health reasons or who are not yet covered by the STIKO recommendations?**

There is currently no final concept for the participation of people who cannot be vaccinated for health reasons or who (so far) do not fall under the above recommendations - but we are working on it and will present one as soon as possible. We are mainly guided by the recommendations of the "Standing Commission on Vaccination" (STIKO).

### **When will the final decision be made whether the camp can take place or not?**

We cannot give a fixed date for this question at the moment. This is because this decision is largely dependent on the overall development of the pandemic and the political decisions. We are constantly monitoring the situation and developments and will also continuously assess whether the camp can continue to take place or whether a cancellation will be necessary. At the end of February, the next conference will take place between the camp management, the Federal Executive Board and experts (e.g. hygiene officers).

### **Will I get my camp fee back if the camp has to be cancelled?**

Yes! If the national Jamboree is cancelled by us (due to corona) the individual participant will not incur any costs - the paid camp fee will be refunded in full!

### **Will I get my camp fee back if I decide not to participate due to the Corona situation?**

Basically yes. We don't want to and can't dictate to anyone which measures and regulations still ensure a "safe and good" feeling - but having this should be the basis for participation.

### **Who bears the costs that have already been incurred or will be incurred for the planning of the camp?**

The costs are borne by the federal government. We try to conclude contracts for services and purchases for the national camp as late as possible. Cancellation arrangements are also made with the service providers as late and moderate as possible in the event of a cancellation due to Corona in order to keep any cancellation costs as low as possible.

### **What measures and restrictions beyond "2G/ 3G" would be possible for an event like the national Jamboree?**

The range of possible restrictions is very wide. Many of them are already known in this or similar ways from other areas of social life:

- Restriction of the number of participants
- Restrictions on access to the camp site
- Wearing the prescribed mouth-nose mask
- Continuous testing
- Negative testing at the beginning of the measure (= 2G+)
- Determination of maximum group sizes = small groups
- Arrival from hot-spot areas not permitted
- Increased capacity for daily hygiene in compliance with the distance rules with control by the teamer
- Quarantine measures in the event of an outbreak of infection with possible official order to break up the camp and request participants to leave.

Attention: This is only an exemplary presentation of possible measures - none of them is currently prescribed or planned for us and the camp!

### **Will there be compulsory testing at the camp?**

Whether there will be compulsory testing at the camp, and if so, to what extent, cannot be said at this point in time. This depends largely on the legal requirements. Should there be an obligation to test, we will check how this could be implemented at the camp.

### **Who can I contact if I have further questions about "Corona and the national camp"?**

You can contact the national camp team at any time via the e-mail address [bundeslager@pfadfinden.de](mailto:bundeslager@pfadfinden.de).
